Why Hanson LED's?

Hanson LED's aren't for everyone. Intended for professional entertainment companies and production companies, Hanson LED fixtures are recognized as the industry standard for reliability, quality and unmatched innovation. Features such as internal battery and electric circuits being on two separate fuse lines for a reliable back-up solution in the event of an unforeseen problem – flicker-free and hand-selected LED's that will match identically as you add more fixtures to your system in the future – the ability to charge and operate the fixture at the same time – built-in transceivers for wireless daisy chaining of signals at great lengths – exclusive Hanson-owned wireless frequencies that avoid signal interference, a charging case that can be closed and stacked while charging and more. For more information, speak to an I DJ NOW Hanson-trained sales representative.

The New Shape of Sound

MACKIE. DLM SERIES
2000W POWERED LOUDSPEAKERS

SKU #	Power	Freq. Range	Dimensions	Weight
DLM8	2000W	65 Hz – 20 kHz	12.3" x 12.1" x 11.9"	22 lbs
DLM12	2000W	38 Hz – 20 kHz	15.9" x 15.3" x 14.3"	31 lbs
DLM12S	2000W	35 Hz – 120 Hz	17.9" x 16.4" x 20.8"	48 lbs

One of the most significant technological innovations of the DLM line is Mackie TruSource™ Technology. It's a potent combination of a brand new, completely unique, transducer design and powerful proprietary digital signal processing. Both full range models feature the extremely compact TruSource driver, which combines the high and low-frequency driver into a vertically-aligned, common-magnet design that is ultra-efficient and extremely capable. The sonic reproduction is incredibly transparent across the entire frequency range. The DLM Series delivers unmatched fidelity.
